*fotos ilustrativas

[As-Is] Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times. Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details. Actual specifications may vary depending on the trim, powertrain and specifications selected.

[To-Be] Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution. The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual. The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.
